

ELEVAGE 50

Classic feed for reliable growth

VIP range : Very Important Performance

- ➔ A high content of highly digestible dairy proteins brought by casein and whey proteins
- ➔ For animals with a high potential
- ➔ For outstanding performance targets

A « serene » growth

- ➔ Thanks to a large use of dairy products, the drinking is extremely digestible
- ➔ Thanks to the add of probiotics well known for their effect on the stabilization of the digestive system microflora

An easy preparation and drinking

- ➔ Thanks to a natural palatability of the product (sweet taste of casein)
- ➔ Thanks to the spray drying process, the solubilization of the fats is easy and their stability stays good in time
- ➔ Thanks to a great fluidity of the milkreplacer, this feed can be used in both distribution systems : buckets (1 meal per day after 10 days or 2 meals per day) or automatic milk distributors

These data are based on our experiences and are given only as information.

ELEVAGE 50

Milkreplacer for rearing calves

Ingredients:

Skimmed milk powder
Whey powder
Palm oil
Coconut oil
Wheat gluten
Wheat meal
Pea meal
Monopotassium phosphate
Sodium bicarbonate

Trace elements:

E1 Iron (ferrous sulfate monohydrate)	50 mg / kg
E2 Iodine (calcium iodate anhydrous)	0.15 mg / kg
E4 Copper (copper sulfate pentahydrate)	7 mg / kg
E5 Manganese (manganese sulfate monohydrate)	35 mg / kg
E6 Zinc (zinc sulfate monohydrate)	60 mg / kg
E8 Selenium (sodium selenite)	0.20 mg / kg
3b8.10 Selenium (organic selenium produced by <i>Saccharomyces cerevisiae</i> CNCM-1-3060)	0.10 mg / kg

Analysis:

Moisture	< 5.00 %
Crude protein	22.5 %
Crude fat	18.5 %
Crude ashes	7.5 %
Crude fiber	0.10 %
Calcium	1.00 %
Phosphorus	0.75 %
Sodium	0.45 %

Vitamines:

Vitamine A (E672)	26 500 U.I. / kg
Vitamine D3 (E671)	10 000 U.I. / kg
Vitamine E	60 mg / kg
Vitamine B1	5 mg / kg
Vitamine B2	10 mg / kg
Vitamine C	300 mg / kg
Vitamine K3	2.50 mg / kg

Enriched in ProviOX 50 containing sources of compounds with antioxidant activities equivalent to 40 mg / kg of Vitamin E.

Supplementations:

Bacillus licheniformis DSM 5749 / *Bacillus subtilis* DSM 5750 (n° CE 1700): 1.28×10^9 UFC / kg
Antioxidants : E321 BHT = 35 ppm
Emulsifiers and stabilizing agents : E433 = 115 ppm

Miscellaneous:

25 kgs bags
To be used within 12 months following the production date.
To be stored in a clean and dry place, in the dark and away from any heat source.
Feeding program: refer to the recommendations of your feed supplier
Use with bucket or automatic machine system
